INSTALLATION GUIDE

Note: This product must be installed by a licensed trade This is a general installation guide - there are many factors that are involved that can alter the installation method.

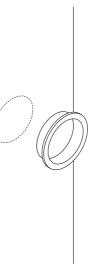

Measure the desired height that you wish for the flush pull to sit at and mark a fixed point.

Mark the required circumference of the flush pull from its rear box (this is the back section of the flush pull).

Use a multi tool or preferred method to evenly remove material to the correct depth.

Apply the necessary amount of adhesive as required to the cut surface.

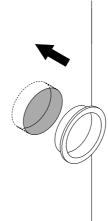

3 Press the flush pull into the cavity.

Use fixings provided to secure flush pull into position
