CABINETY HANDLE INSTALLATION GUIDE

Note: This product must be installed by a licensed tradesperson.
This is a general installation guide - there are many factors that are involved that can alter the installation method.

1. Mark out the desired position for handle on both sides of door/drawer panel.
2. Drill prescribed holes through door/drawer panel for handle fixings.

Note: Gauge drill bit using hole sizes in template.

*Please Note

Your carpenter may need to countersink the provided bolts (shown) or provide alternative ones to fit your cabinetry.

2. Using a Phillips head screwdriver fix screws into handle.
