WEIGHT	Product: 45.9kg Shipping: 55.1kg

INSTALLATION GUIDE - UNDERMOUNT SINK

Note: This product must be installed by a **licensed tradesperson**.
This is a general installation guide - there are many factors that are involved that can alter the installation method.

- 1 Note: this basin can only be installed into new cabinetry & benchtops by a **licensed tradesperson**.

The sink must be available to tradespeople for taking measurements at time of manufacture. **ABI** is unable to provide templates due to variations in the material of the product.

Allow for the cabinetry to be designed so the sink front is sitting proud of cabinetry

- 2 Mount the sink into the cabinet shelf ensuring the sink is level with the cabinet top.

- 3 Cut the bench-top using the external measurements of the sink perimeter in conjunction with the desired sink overhang and cabinetry shelf.

- 4 Install the benchtop & apply adhesive to sink perimeter. Wipe away any excess adhesive sealant.

INSTALLATION GUIDE - FLUSHMOUNT SINK

Note: This product must be installed by a licensed tradesperson.
This is a general installation guide - there are many factors that are involved that can alter the installation method.

- 1 Note: this basin can only be installed into new cabinetry & benchtops by a licensed tradesperson.

The sink must be available to tradespeople for taking measurements at time of manufacture. **ABI** is unable to provide templates due to variations in the material of the product.

Allow for the cabinetry to be designed so the sink front is sitting proud of cabinetry & for additional depth of the benchtop to marry up with the level of the flushmount sink.

- 2 Mount the sink into the cabinet shelf.

- 3 Cut the benchtop using the external measurements of the sink perimeter in conjunction with the desired sink overhang and cabinetry shelf.

- 4 Install the benchtop & apply adhesive to sink perimeter. Wipe away any excess adhesive sealant.
