INSTALLATION GUIDE

This product must be installed by a licensed plumber. This is a general installation guide - there are many factors that are involved that can alter the installation method. This product install must comply with AS/NZS 3500.

- 1 New Build**
Install breach in desired position

Retrofitting Existing

Remove existing tapware & reseal body seats until shiny & smooth. Remove locking nut and screw spindle into breach, hand tighten until rear of spindle meets the body seat. **Be sure not to overtighten.** If necessary apply more pressure lightly with a spanner.

*At this point it is recommended to test the orientation of your chosen handles. Micro adjustments can be made to spindle to ensure correct handle orientation before installing the locking nut.

- 2** Place compression washer over spindle and screw on the locking nut, tightening with a spanner. **TEST AND COMMISSION. ENSURE THERE ARE NO LEAKS.**

- 3** Continue with the installation of the handles. See installation guide specific to your chosen handle design.

IN THE BOX

1x Hot spindle - Red
(turn clockwise on)

1x Cold spindle - Blue
(anticlockwise turn on)

2x Compression
Washer

2x Locking Nut

Regularly clean with mild liquid detergent or soap and water

DO NOT use cream cleaners or bleach. These substances are abrasive

DO NOT use cleaning pads with abrasive surfaces as this may scratch the material
