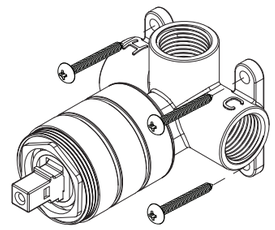
# INSTALLATION GUIDE

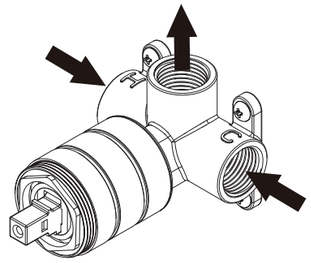
Note:This product must be installed by a licensed plumber.
This is a general installation guide - there are many factors that are involved that can alter the installation method.
This product install must comply with AS/NZS 3500.

## ROUGH IN

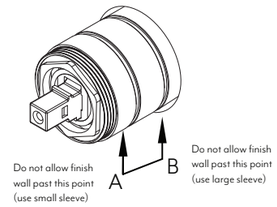
1. Fasten screws to secure the wall mixer into wall structure.



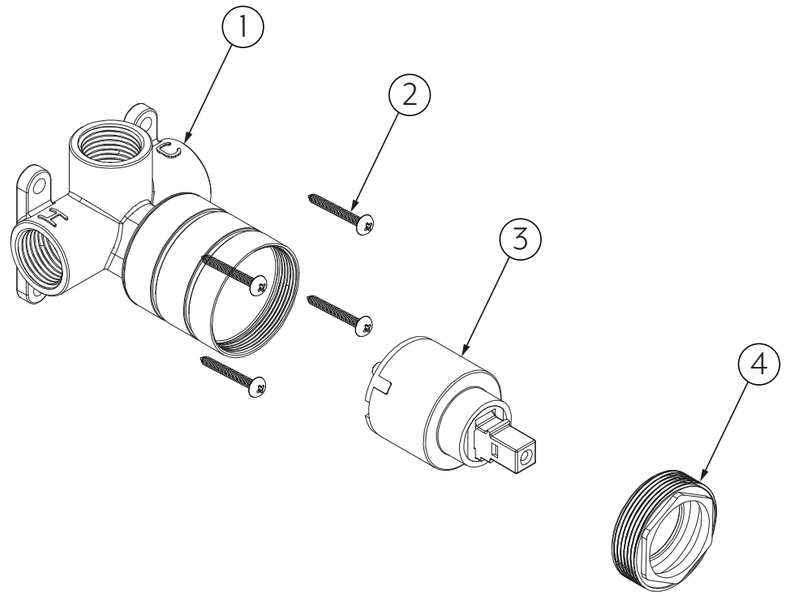
2. Attach water supply and water outlet. TEST AND CHECK FOR LEAKS.



3. Drill a 47mm hole in wall.
Waterproof at this point if future sleeve change is desired.
DO NOT WATERPROOF SLEEVE.
*Please ensure that the hole is big enough to allow for the sleeve to slide on at fit-off stage.*



**Note:** For handle kit installation guide please refer to their respective install guide. This can be found on our website.

## IN THE BOX (IN-WALL)


1. Body
2. Fixing Screws
3. Cartridge
4. Locking nut
